3. COMPANY SAFETY / ISM ORGANISATIONAL CHART⁴

ISM Code requires that the DPA has direct access to the Managing Director. The organogram below identifies this link between the DPA and the Managing Director. Furthermore, the organogram identifies the interactions between the technical and crewing departments and the DPA. The Master of vessels also has direct access to the DPA.⁵

ISM SAFETY ORGANOGRAM

Should an issue be identified by either a master in the fleet or the technical / crewing department that cannot be resolved by Senior Management, however still remains a conflict or outstanding, the DPA as per the direction of the ISM code is fully entitled to approach the Managing Director for his intercession with the issue.⁶
